Organic sales growth in the Group was 5 percent (7) in the second quarter and 6 percent (7) in the first half year. North America delivered solid organic sales growth, despite strong comparatives. In Europe, organic sales growth was hampered by a few large guarding contract losses during the second quarter in a competitive business environment. We grew faster than the security market in general in the first six months, despite a slowdown in a few countries in Europe. Security solutions and electronic security sales grew by 15 percent in the first half year, and now represent 21 percent of total Group sales.

The operating margin in the second quarter was unchanged at 5.0 percent (5.0). It was also unchanged in the first half year at 4.9 percent (4.9), with a strong performance in North America, and Europe and Ibero-America were flat. In Europe we had challenging labor conditions and were not able to fully offset wage cost increases through price increases in two countries. Managing the price and wage balance, and cost efficiency, will remain key focus areas throughout the year. The operating margin in Europe was supported by the cost savings program

initiated during 2018, which developed according to plan. The operating result, adjusted for changes in exchange rates, grew with 7 percent.

Earnings per share, adjusted for changes in exchange rates and items affecting comparability, was slightly behind last year, negatively impacted by a higher effective tax rate in the US and by a negative net effect from IFRS 16.

Operating and free cash flow improved compared with the first six months last year. Cash management remains a key priority across all business segments.

### Driving the transformation of the security services industry

During the second quarter, we announced three new global units to support our strategy of specialization in each of our protective services, adding data-driven intelligence and delivering client centric solutions. We also announced changes to the Securitas Group Management team.

Earlier this year we announced two comprehensive multi-year programs, which are progressing according to plan. The first

program will modernize our global IS/IT platform and capability across the Group and the second is a business transformation of our North American operations.

In the near term, we maintain our focus on delivering value to clients through our leading protective services offering. We are also driving employee-focused activities to continuously increase our employee engagement and to provide better conditions and opportunities for our employees.

This way, we continue to accelerate the transformation of our company and the security services industry.

Magnus Ahlqvist  
President and  
Chief Executive Officer

### April-June 2019

Organic sales growth was 1 percent (5), a decline mainly due to France and the UK. In addition to the termination of an Aviation contract in France in April, worth MEUR 22 in annual sales, a few other large contracts were terminated in France and in the UK, of which most were terminated in the beginning of the quarter. Organic sales growth was supported by Belgium and Germany, the Nordic countries and the guarding business in Turkey.

Security solutions and electronic security sales represented MSEK 2 582 (2 449) or 22 percent (21) of total sales in the business segment.

The operating margin was 5.0 percent (5.1). The decline was mainly explained by continued challenging conditions in France, including the contract terminations mentioned above as well as regulatory changes. Furthermore, the operating margin was hampered by the termination of a profitable contract in Sweden as previously communicated. Also, wage increases were not fully offset with price increases in France and the Netherlands in the second quarter. The operating margin was supported by the cost savings program initiated during 2018, which developed according to plan. The adoption of IFRS 16 Leases had a positive impact on the operating result in the business segment.

The Swedish krona exchange rate weakened against foreign currencies, primarily the Euro, which had a small positive effect on operating income in Swedish kronor. The real change was 0 percent in the second quarter.

### January-June 2019

The adoption of IFRS 16 Leases had a positive impact on the operating result in the business segment.

The Swedish krona exchange rate weakened against foreign currencies, primarily the Euro, which had a small positive effect on operating income in Swedish kronor. The real change was 4 percent in the first half year.

## Security Services Ibero-America

\* As of July 1, 2018, Securitas has adopted IAS 29 Financial reporting in hyperinflationary economies for our operations in Argentina. When calculating the key ratios for organic sales growth percentage and real change percentage, the impact from the remeasurement is treated similarly to currency change. The calculated key ratio percentages are thus comparable as to how these were calculated before the adoption of IAS 29. The impact from IAS 29 is a remeasurement of sales with MSEK -4 and a remeasurement of operating income before amortization of MSEK -1 for H1 2019.

### April-June 2019

Organic sales growth was 16 percent (11). The improvement derived mainly from Spain with double-digit organic sales growth and from price increases in Argentina.

Security solutions and electronic security sales represented MSEK 918 (816) or 28 percent (26) of total sales in the business segment.

The operating margin was 4.6 percent (4.7), a decline mainly due to Argentina. Spain showed continued strong performance supported by high margin security solutions sales in Spain – of which an important part are short term contracts – and leverage from the strong topline growth. The adoption of IFRS 16 Leases had a positive impact on the operating result in the business segment.

The Swedish krona exchange rate weakened against the Euro while it strengthened against the Argentinian peso. The net effect was positive on operating income in Swedish kronor. The real change in the segment was -1 percent in the second quarter.

# Report of Review

(Translation of Swedish Original)

Review report over Interim Financial Statements (Interim report) prepared in accordance with IAS 34 and Chapter 9 of the Swedish Annual Accounts Act.

## Introduction

We have reviewed this report for the period January 1, 2019 to June 30, 2019 for Securitas AB. The Board of Directors and the CEO and President are responsible for the preparation and presentation of this interim report in accordance with IAS 34 and the Swedish Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

## Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements ISRE 2410, Review of Interim Report Performed by the Independent Auditor of the Entity. A review consists of making inquiries, primarily of

persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing, ISA, and other generally accepted auditing standards in Sweden. The procedures performed in a review do not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

## Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not prepared, in all material respects, in accordance with IAS 34 and the Swedish Annual Accounts Act, regarding the Group, and with the Swedish Annual Accounts Act, regarding the Parent Company.

The amendments clarify the accounting for defined benefit plan amendments, curtailments and settlements. They are not expected to have any material impact on the Group's financial statements.

None of the other published standards and interpretations that are mandatory for the Group's financial year 2019 are assessed to have any impact on the Group's financial statements.

## NOTE 2 Adoption of IFRS 16 Leases

Securitas has adopted IFRS 16 as of January 1, 2019. The cumulative effect of the adoption has been recognized without restatement of the comparative periods.

Securitas' lease agreements are mainly attributable to buildings and vehicles. As from the transition to IFRS 16, they are accounted for as right-of-use assets and long-term and current lease liabilities in the consolidated balance sheet.

In the consolidated statement of income, depreciation of the right-of-use assets is accounted for on the lines production expenses and selling and administrative expenses. Interest expenses are accounted for on the line financial income and expenses. In the Group's segment overviews, the effects of the adoption of IFRS 16 are accounted for under each segment.

The lease liabilities on January 1, 2019 have been measured at the present value of remaining lease payments, discounted by using the incremental borrowing rate for each country. The right-of-use assets on January 1, 2019 have been measured at an amount equal to the lease liabilities.

Extension clauses are evaluated for each lease agreement and are applied based on our best estimate at each closing. Leases for which the lease term ends within 12 months of the date of initial application have been accounted for as short-term leases and are thus excluded from the lease liabilities accounted for under IFRS 16.

IFRS 16 has been adopted on segment level. As a consequence, the Group will change the level of impairment testing for goodwill from country level to segment level in 2019.

The effects on the consolidated statement of income and the consolidated balance sheet from the adoption of IFRS 16 are specified in the tables below.

#### Guarding services

This comprises on-site and mobile guarding, which is services with the same revenue recognition pattern. Revenue is recognized over time, as the services are rendered by Securitas and simultaneously consumed by the customers. Such services cannot be re-performed.

#### Security solutions and electronic security

This comprises two broad categories regarding security solutions and electronic security.

Security solutions are a combination of services such as on-site and/or mobile guarding and/or remote guarding. These services are combined with a technology component in terms of equipment owned and managed by Securitas and used in the provision of services. The equipment is installed at the customer site. The revenue recognition pattern is over time, as the services are rendered by Securitas and simultaneously consumed by the customers. A security solution normally constitutes one performance obligation.

Electronic security consists of the sale of alarm installations comprising design and installation (time, material and related expenses). Revenue is recognized as per the contract, either upon completion of the conditions in the contract, or over time based on the percentage of completion. Remote guarding (in the form of alarm

monitoring services), that is sold separately and not as part of a security solution, is also included in this category. Revenue recognition is over time as this is also a service that is rendered by Securitas and simultaneously consumed by the customers. The category further includes maintenance services, that are either performed upon request (time and material) with revenue recognition at a point in time (when the work has been performed), or over time if part of a service level contract with a subscription fee. Finally there is also a to a limited extent product sales (alarms and components) without any design or installation. The revenue recognition is at a point in time (upon delivery).

#### Other

Other comprises mainly corporate risk management services that are either recognized over time or at a point in time as well as other ancillary business.

#### Other operating income

Other operating income consists in its entirety of trade mark fees for the use of the Securitas brand name.

#### Revenue per segment

The disaggregation of revenue by segment is shown in the table below. Total sales agree to total sales in the segment overviews.

## NOTE 6 Definitions and calculation of key ratios

The calculations below relate to the period January-June 2019.

### Interest coverage ratio

Operating income before amortization (rolling 12 months) plus interest income (rolling 12 months) in relation to interest expenses (rolling 12 months).  
Calculation:  $(5\,594 + 51) / 598 = 9.4$

### Free cash flow as % of adjusted income

Free cash flow as a percentage of adjusted income (operating income before amortization adjusted for financial income and expenses, excluding revaluation of financial instruments, and current taxes).  
Calculation:  $10 / (2\,667 - 289 + 1 - 623) = 1\%$

### Free cash flow in relation to net debt

Free cash flow (rolling 12 months) in relation to closing balance net debt.  
Calculation:  $2\,794 / 20\,460 = 0.14$

### Net debt to EBITDA ratio

Net debt in relation to operating income after amortization (rolling 12 months) plus amortization of acquisition related intangible assets (rolling 12 months) and depreciation (rolling 12 months).  
Calculation:  $20\,460 / (4\,681 + 268 + 2\,198) = 2.9$

### Operating capital employed as % of total sales

Operating capital employed as a percentage of total sales adjusted for the full-year sales of acquired entities.  
Calculation:  $14\,293 / 110\,992 = 13\%$

### Return on operating capital employed

Operating income before amortization (rolling 12 months) plus items affecting comparability (rolling 12 months) as a percentage of the average balance of operating capital employed.  
Calculation:  $(5\,594 - 521) / ((14\,293 + 9\,199) / 2) = 43\%$

### Return on capital employed

Operating income before amortization (rolling 12 months) plus items affecting comparability (rolling 12 months) as a percentage of closing balance of capital employed.  
Calculation:  $(5\,594 - 521) / 38\,370 = 13\%$

### Net debt equity ratio

Net debt in relation to shareholders' equity.  
Calculation:  $20\,460 / 17\,910 = 1.14$
